RUSSIAN LIBERALS

DEMAND RESPONSIBLE PARLIAMENT.

Insist that Members shall be Elected by Municipal Suffrage to Control the Budget.

Bulletin Special.

St. Petersburg, March 25.—The Liberals have won a partial victory in the composition of the commission to elaborate a scheme for national representation, planting themselves squarely on the demand for a Parliament by universal suffrage, with control of the budget. They insist that bureaucrats cannot be entrusted to execute the popular will.

Correspondents at the front believe that resumption of hostilities on a grand scale and an important battle are improbable inside of three months. The czar has been reluctantly persuaded of the necessity of concluding peace, but is inflexibly determined to pay no indemnity.

London, March 25.—The talk of peace between Russia and Japan and the financial contest between the two countries is attracting greater attention than the movements in Manchuria.

Shindy in the Quebec Council.

Bulletin Special.

Quebec, March 24.—A tremendous shindy occurred at the city council meeting tonight. The row commenced over policemen's salaries. An alderman quarrelled with Mayor Parent (former Premier) and was struck in the mouth by one of the Mayor's friends. He returned with a blow over the head with a heavy walking stick. The melee became general. Coats were stripped off, blood flowed, blows were exchanged, and sticks brought into play. They fought for a quarter of an hour.

Regina Boy Killed.

Bulletin Special.

Regina, March 25.—Kenneth McDonald, aged 11 years, was killed by the chemical engine today. The brigade was turning out to a fire, and as the chemical engine was being run out McDonald rushed to grasp the rope to help drag it. He slipped in the mud and the engine wheels struck him across the abdomen. He lived about 20 minutes afterwards.

SUCCESSFUL RECITAL.

MacDougall church was crowded to the doors last evening when the faculty of the department of music of Alberta College gave a recital. The program was good and the numbers uniformly well rendered. Following was the program:—

PROGRAM, PART I.

- 1.—Cheminade.....Arlequin.....Piano Miss Beatrice Crawford.
- 2.—Mazurka.....Ave Marie (Cavaliere Rusticani).....Vocal Miss Ethel Webster Violin obligato—Miss Edith Webster.
- 3.—Ch. Action.....La Fleur et le Papillon.....Mandolin Mr. W. G. Plowright
- 4.—Mendelssohn.....Duetto.....Piano Miss Crawford
- 5.—Braga.....La Serenata.....Violin Miss Edith Webster
- 7.—Address....."Some Masterpieces of Art."

PART II.

- 1.—Beethoven.....Sonata Pathetique.....Piano Grave. Molto allegro con brio. Adagio cantabile. Allegro. Mr. Percy B. Hook.
- 2.—C. Giuliani-Walter.....Genito Agassiz.....Mandolin Mr. Plowright.
- 3.—(a) Schubert-Liszt, "Hark! Hark, the Lark".....Piano. This is Liszt's arrangement of Schubert's famous song. "Hark! Hark! the lark at heaven's gate sings. And Phoebe's eyes arise. His steeds to water at those springs. On chaunted flowers that lie. And winking Maybuds begin to open their golden eyes. With everything that pretty is. My lady sweet, arise." (b) W. Kaffnerberger.....Aubade.....Piano a quiet composition with a beautiful melody after the style of a lullaby. Mr. Hook.
- 4.—Gounod.....Jewel Song (Faust).....Vocal Miss Ethel Webster.
- 5.—Poppo.....Gavotte in D. Opus 23.....Violin Miss Edith Webster.
- 6.—Chopin.....(a) Recense.....Piano (b) Ballade in A flat. God Save the King.

THE CITY COUNCIL

APPOINTS SECRETARY AND AUDITOR

Finance Commissioner will also be Secretary-Treasurer. H. P. Mountfield the new Auditor.

A special session of the city council, called by Mayor MacKenzie, was held in the chamber last evening, all the members being present.

COMBINED THE OFFICES.

The question of the appointment of a secretary-treasurer for the city which came up at the previous meeting, and was laid over, was the first matter taken up. After considerable discussion a motion carried that the finance commissioner be also secretary-treasurer at a salary for the combined positions of \$1830 per year.

The vote was a tie. Ald. Griesbach, Boyle, May and Clarke opposing and Ald. McLeod, Fraser, Liard and Bellamy supporting. The mayor cast the deciding vote.

WILL MOVE FOR A RAISE.

Ald. Clark, chairman of the finance committee, gave notice that at the next meeting of the council he would bring in a motion to pay the finance commissioner \$200 extra for acting as secretary-treasurer.

NEW AUDITOR APPOINTED.

On motion the salary of the city auditor was raised from \$200 to \$300. Two applications for the position for the current year were read, one from A. R. Tomlinson, the other from H. H. Mountfield. The latter application was accepted and the appointment made. The vote was the same as on the former motion.

JASPER AVENUE EXTENSION.

The matter of Jasper avenue extension was taken up and it was decided to survey the extension at once, grade it and lay sidewalks on either side of the street, the expense to be borne by frontage tax.

THE G. T. P. AGREEMENT.

The council went into committee of the whole to hear Mr. G. T. P. Emery speaking for the city solicitor re the G. T. P. agreement. The committee rose and reported progress.

WEST END SEWER.

The public works commissioner presented a report re the west end sewer. The question was discussed at length and left with the commissioner to further report re the practicability of having the proposed extension run along the northern portion of the city and empty into the river east of the city.

SATURDAY, MARCH 25th, 1905.

PARLIAMENT

Ottawa, March 16, 1905.

Talk for the Sake of Talk.

Yesterday's discussion, brought on by Mr. Borden, ostensibly based on Premier Haultain's open letter on the Autonomy bill addressed to the Premier, was an attempt on the part of the Opposition to force the Government into taking a position upon the educational clauses of the Northwest bill before it was ready and at the same time, by a storm of words, draw public attention away from the very patent fact that the Opposition were not prepared to take a position on the question on its merits, but intended to be guided solely by the position which the Government would ultimately take. Every ingenuity of argument and insinuation was employed by Mr. Borden to secure a premature declaration from the Government or its supporters. The principles at issue were not discussed and could not be under the rules of the House, so that nothing was added to the general understanding of the merits of the measure or to the position of the Opposition party upon it.

Indications of Amendment.

The important feature of the discussion was the allusion of the Premier in his reply to the probability of amendment; and the subsequent declaration by the Minister of Justice that the sole intent in drafting the provisions as they stood was to continue to the minority in the Northwest solely and only the rights they enjoyed.

Mr. Borden in a Strictly Lawyerlike Attitude

Mr. Borden made a carefully worded argument in support of a theory which he advanced, that as the educational clauses were not the result of consultation with the Premier of the Territories, or with the Ministers of Interior and Finance, they must have been the result of advice given by the seven Liberal members representing the Northwest. This theory was especially funny in view of the general understanding that the western Liberals are practically unanimous in their support of Mr. Sifton's position. The theory was set up, not because Mr. Borden believed in it, or expected any other person could be induced to do so, but because he hoped by advancing it to secure a denial from some of the members alluded to; when no doubt he would have had a shot of some sort ready. But the effort to secure a denial was so labored and so evident that it failed of its purpose and the point that he has been working to make has been lost to Hansard.

Many Take a Hand.

The discussion was continued by Messrs. Northrop, Osler, McCarthy (Calgary), Lake Roche (Marquette), Schaffner, Heron, Foster, Fitzpatrick, Bennett, Boyce, Ingram and Sproule. The question was raised on the motion to go into committee of supply at a little after three o'clock. The debate was concluded and the House went into committee of supply, and almost immediately adjourned, at midnight.

McCarthy Objects to Alberta's Area

Mr. McCarthy based his chief complaint on the allegation that the Minister of Interior and Premier Haultain had not been sufficiently consulted in the preparation of the bill. He considered that the boundary between the two provinces should have been some distance further east than the fourth meridian. He stated that a very strong objection against the bill was that the Great Northern country is being included in the new provinces. He particularly objected to Athabasca district being given representation in the provincial legislature.

Lake is Against Everything.

Mr. Lake urged the necessity of the appointment of the Minister of Interior; spoke of the objections to the educational clauses coming chiefly from supporters of the Government; said that the proposed autonomy gave the Territories an imperfect and

Ross Bros. Ltd

EDMONTON, ALTA.,
ARE THE SOLE AGENTS FOR THE CELEBRATED

Peters
Double Cylinder
Force Pump

The annexed cut (Fig 60) represents our Double Cylinder Force Pump. This is positively the easiest working and most durable pump on the market. Its capacity is far greater than any other pump; and for a stock pump it has no equal. This pump is constructed with two solid brass cylinders and, each one working independently, discharge their full capacity at every upward and downward stroke of the handle; therefore our pump will discharge twice as much water as any other pump, with about the amount of labor. Its ease in operating is based on the fact that it has two rods, one on each side of the pipe, and the one balancing the other, overcomes all the hard labor of pumping water. A four-year-old child can easily operate the pump at a depth of 50 feet.

Its durability is far superior to any other pump for the following reasons:

1. It has solid brass cylinders which do not wear out the leathers.
2. The cylinders being at the bottom of the well never lose their priming neither rust nor wear.
3. It has chilled valve seats which
4. The leather used for plungers and check valves is the very best obtainable.
5. It has no stuffing boxes.
6. The cylinders are stationary, working nothing but the plunger halves.
7. It having double the capacity of any other pump, requires but half the labor.
8. The pipes and rods used are all galvanized.

The Capacity of these Pumps are as follows.

3 1/2 in. Double Cylinder	- - -	1300 Gallons per hour
3 in. " "	- - -	1000 " "
2 1/2 in. " "	- - -	700 " "

In price they compare favorably with many of the cheaper and more inferior pumps sold. They are not a new thing or an experiment as we sold a large number last season and in every instance they gave perfect satisfaction.

Building Hardware

Of every description. We carry the largest stock, best assorted and our PRICES ARE LOWER than any other firm west of Winnipeg. We solicit assorting orders from the trade which will be filled promptly and at lowest prices.

Ross Bros. Ltd

Continued on page three

PARLIAMENT.

Continued from page two

inferior provincial organization, and objected to the Dominion retaining control of the lands; also to the continuance of the exemption from taxation of the Canadian Pacific Railway Company. He also mildly objected to the inclusion of the Athabasca district in the new provinces.

"Me Too"—Says Herron.

Mr. Herron spoke briefly. He criticized the Government for the absence of the Minister of Interior; objected to the Dominion retaining the lands and minerals; and said that no compensation could be given by the Government that would reconcile the people of the west to being deprived of the control. He said "I wish to put myself on record as saying that there are several clauses in the bill as objectionable to our people as the clauses dealing with education."

Manitoba's Kick.

Schaffner and Roche (Marquette) made the injustice of refusing to extend the boundaries of Manitoba the chief subject of their complaint.

Messrs. Northrup, Osler, Boyce and Ingram added very little to the debate.

Foster in his Government specialty of Parliamentary build.

This could not be said of Mr. Foster, who, in his best form, summed up the sentiment of the Opposition against the Government for having actually undertaken to do something that the circumstances of the country required to be done at one time or another, the only question being whether it should be sooner or later.

Fitzpatrick Accused of Consistency.

Mr. Bennett followed Mr. Fitzpatrick, who had made a temperate and complete statement of the circumstances connected with the drafting of the educational clauses, by accusing him of being a firebrand who desired to stir up race and creed prejudice in Canada. He accused Mr. Fitzpatrick of having been elected in '96 as a supporter of remedial legislation and of taking a corresponding position today in connection with the Northwest Autonomy bills.

The Old, Old Game—Ultra Protestant in Ontario: Ultra Catholic in Quebec.

Dr. Sproule occupied a short time in controverting an assertion that had been made by Mr. Fitzpatrick that the Conservative party was circulating petitions against the educational clauses in Ontario and to maintain the educational clauses as they stood in Quebec. Petitions of both characters are being presented to the House every day and it had been suggested that Dr. Sproule was connected with the preparation of both sets of petitions. This he emphatically denied, and declared that as far as he was concerned the petitions against the bill which were circulating in Ontario were also circulating in Quebec; that he had nothing to do with the petitions in favor of the bill which were being circulated in Quebec, but did not at all deny that they are being circulated by the political party of which he is a leading member.

A Wasted Day.

The net result of the day's discussion was that a number of new members had an opportunity to make their first speech. There was a considerable amount of ill-feeling developed between the leading men on opposing sides of the House, and another day of the session was spent without a particle of advancement of business. Because whatever discussion may take place in connection with the autonomy bill before the second reading will not necessarily affect the length of the discussion, which must take place after the second reading.

BECAUSE PROPERLY CURED

Y Pharaohs have been called a "Health cigar" and this is why: Every leaf of tobacco I work into Pharaoh is absolutely free of "gum."

You must know that a "gummy" tobacco will make a poor smoke and act injuriously on the throat and stomach. The gum, dissolved by the heat of combustion, is drawn into the mouth—becomes mixed with the saliva and finally reaches the stomach.

The membrane that lines your throat and stomach is pretty tough—but it won't stand the harsh, irritating action of this dissolved gum.

You'll have sore throat if you smoke the "gum" cigar—you'll have heartburn, indigestion, and a disagreeable taste in your mouth from an injured stomach.

With every particle of gum properly "sweated," cured and aged out of the leaf I use as filler for my Pharaoh, I can guarantee you a pure, cool, sweet, fragrant smoke—free from disagreeable tastes and injurious actions on the inner man.

9.—Closing....."God Save the King."

SCHOOL CONCERT.

A unique and interesting entertainment was held in the Poplar Lake school house last evening under the auspices of the American Society of Equity. The evening was very fine and a large number drove out from town and thoroughly enjoyed the varied and interesting program provided.

Mr. H. Long was chairman and among those who helped make the evening enjoyable were Miss Jessie Potter, the Edmonton Quartet, Mr. D. Corbett of the Bulletin staff, Mr. Geo. Warner, of Sturgeon, little Miss Molly McDonald, Miss Grierson and Mr. Stacy.

Mr. Keen gave a speech outlining the work and motives of the society, showing how it was to the advantage of every tiller of the soil, to join the American Society of Equity and help himself and his fellow workers to obtain their just profit from their labor.

The ladies provided a very enjoyable lunch, which was done ample justice to by the large and hungry audience after which Box and Cox was well put on by local talent.

The singing of "God Save the King" ended one of the most enjoyable evenings ever spent in the Poplar Lake school house.

MORSETALKS IN CALGARY

Albertans: "We are entering Edmonton on the south of the C. N. R. The C. N. R. objected to such an arrangement and informed the city of their objection. If there is to be any railway trouble in Edmonton it will be between the C. N. R. and the city, and not between the G. T. P. and the city."

Mr. Morse said that the G. T. P. would be in Edmonton very soon, probably next year, and that work on the shops would be begun this year.

He said that the main line would be pushed through and they would not consider branch lines until the main line had been constructed. As soon as the main line was constructed they would look out for branch lines, and the first one would be to Calgary.

SEEDING AT STONY PLAIN

Farmers in the city yesterday from Stony Plain reports that considerable seeding has been already done in that district. Mr. Emerson of Ingo has 35 acres of wheat sown. Carl Madu has been sowing all week and has a large acreage already sown. Practically all the farmers in West Stony Plain are either seeding or preparing to begin at once.

INJURED IN A RUNAWAY.

W. Archibald, of the staff of the bank of Nova Scotia here, had a leg broken in a runaway accident yesterday. He was riding on a load of furniture from Strathcona to the city when the horses became frightened and bolted. Archibald was thrown to the ground and besides the fracture mentioned, was badly shaken up. He was taken to the general hospital, where he is reported to be progressing favorably.

ANNUAL ADDRESS.

TO THE BOARD OF TRADE.

The Address of Retiring-Pres. J. H. Morris at the Annual General Meeting of the Board on Thursday.

Following was the address delivered by Pres. J. H. Morris at the annual meeting of the board of trade yesterday:

TO THE MEMBERS OF THE EDMONTON BOARD OF TRADE:

Gentlemen.—On the 26th February, 1904, we assembled for the same purpose as now to hold our Annual General Meeting, since which important changes have taken place. Edmonton was then a town, it is now a city and to celebrate its inauguration on its maturity, November 7th last, a civic banquet was given in Mr. Scott's spacious skating rink, which was largely attended by prominent people from far and near. Edmonton is now the Provisional Capital of the new and mighty Province of Alberta.

This time last year we had no certainty about the entrance of the Grand Trunk Pacific into Edmonton—now we have. An agreement has been signed between the company and the city, making Edmonton the chief divisional point between Winnipeg and the Pacific Coast with their work shops, etc.

Our city, judging from the enquiries from every part of the globe keeps up its reputation as being one of the best known in the North-West Territories. In connection with these enquiries I may mention that it is necessary that prompt action be taken to get out a descriptive illustrated pamphlet of the city and district, none now being on hand. It is utterly impossible to answer the enquiries otherwise.

During the year our board has been energetic in all matters pertaining to the town and district, and while we have not achieved all we desired, yet the progress made is conclusive evidence that we are marching on toward the goal of our ambition and what is generally conceded the largest and most important city west of Winnipeg and east of the mountains. Every citizen has a right to feel justly proud of the steady advancement made by our town during the past year.

Special stress should be laid on the fact, that our district being so far ahead of any other portion of the Territories for agricultural purposes and mixed farming, that all the available homestead lands within a distance of about 50 miles are quickly taken up; but for the immigrant with a little capital, this district offers great advantages. He can buy an improved farm at from \$5. to \$20 per acre, that he and his family can step right in and find roads, schools and churches established, thus avoiding all the hard work necessary in a new district, and all improvements made in place of waiting two years for a return, can have good return the first year.

We have 715 miles of railway in progress of building in this district which is being rushed forward at the utmost possible speed, which will double and treble the value besides putting lots of money in circulation for the products of the farmer and ready work between seasons at good pay.

Our city was honored by visits from a number of prominent personages, railway and government officials, etc., during the year, and I am pleased to state that on every occasion the attitude of the council in asking the board to assist in the entertaining, and the readiness displayed by the officers and members offering their services, shows that the proper feeling exists between the two bodies. I must say that I found the mayor (Mr. Short), for 1904, always willing to go into any proposition with the board and to assist us whenever possible. The two bodies should, in the interest of the district, always go hand in hand for the discussion of public affairs.

RE MEMBERSHIP

Considering its population, Edmonton has the largest number of members belonging to its board of trade of any place in Manitoba or the North-West Territories, and possibly in the Dominion of Canada; but there is room for more, and every man who has the welfare of the city at heart should become a member. There are a number of business men in our city that are not members who should be. Finally, gentlemen, you must all be pleased, when summed up, as per secretary's report, with the progress made by the city and district. Already, for 1905, some large solid brick buildings have been contracted for. And, again, this board urges on the Dominion Government the necessity of the following:

A NEW POST OFFICE, A COURT HOUSE, AN EXPERIMENTAL FARM.

The improving of the navigation from here, eastward and the work of protecting the banks along the river from further land slides.

It is gratifying to every ratepayer to know that the municipal ownership of its waterworks, electric light and telephone service is considered very satisfactory.

On behalf of the board, I have to thank the city council for the use of their hall, whenever wanted, to the gentlemen who assisted the secretary, by giving him information, and also to you gentlemen, and to the council of the board, for promptness shown in assisting to carry out the business of the board during the past busy year. As in the past the board's interests will be mine.

JOS. H. MORRIS, President.

CHEAP FARM LANDS

Out of 5000 acres of carefully selected land, you have now an opportunity to purchase 2500 acres of choice farm land at exceedingly low prices. These lands are nearly all close to surveyed lines of railroads and some in the immediate vicinity of proposed railway stations. This offer will be for

ONE WEEK ONLY

and is probably the last chance to buy cheap land in Northern Alberta. For any one looking for a gilt edge investment with every prospect of a big increase in value in the near future, this is a golden opportunity. For particulars apply to Short, Cross, Biggar & Ewing, or the owner

A MILD WINTER

AT THE HEAD OF THE PASS.

The Hills were green early in March.

G. T. P. Party searching for a new Crossing.

Mr. Jock, trader at Yellowhead Pass, reached the city on Thursday after an uneventful trip of sixteen days. As there is no trail from Lac Ste. Anne to the Pass, navigable for wagons, the trip has to be made on horseback, and supplies are taken in on horses. Mr. Jock has for a number of years conducted a trading post at the mouth of the Pass, where the narrow defile opens into rolling plain country of the foothills. He also ranches and has a large band of horses.

A MILD WINTER.

The post is in the chinook belt, the warm winds from the Pacific seldom allowing the snow to lie on the ground for any length of time, and moderating very considerably the severity of winter. The coldest day during the present winter was Christmas day, when the mercury went down to 30 below. Since that time it has not gone farther than 22 below and has been as high as 64 above. On February 14 the weather had become so warm that the horses deserted the feed stacks and took to pasture. On March 8 the grass on the hillsides was two inches in length and beautifully green.

GOOD FUR CATCH EXPECTED.

The fur catch for the season is expected to be good though when Mr. Jack left, none of the hunters had reached the post.

G. T. P. SURVEY PARTY.

At Lac Ste. Anne a G. T. P. survey party under Mr. A. S. Going was met heading for the mountains. As nearly as could be learned the party were to prospect through the mountains between the Yellowhead Pass and the Pine River Pass in an effort to find another route to the coast. The Yellowhead lies too far south and the Pine River too far north to admit of a direct route from Edmonton to the Pacific, and Mr. Going's party will spend the greater part of the next year trying to find a suitable crossing more directly west of the city. Mr. Jock, who knows the country thoroughly, thinks such a route can be found at the Grand Forks of the Fraser, though the grades would be heavier than through the other passes.

IRISHMEN WILL FORM A CLUB.

The St. Patrick's day celebration committee met last evening in the Edmonton Express Co.'s office. Mr. Maxwell Johnston occupied the chair. A hearty vote of thanks was passed to Mr. Johnston for the use of the express company's office for the purpose of holding committee meetings, to those who contributed to the program at the supper, and to the merchants of the city who so generously consenting to close their establishments on the afternoon of St. Patrick's day, thus contributing very largely to the success of the celebration. After some discussion it was unanimously decided to form a society or club for the purpose of social intercourse and mutual fellowship between persons of Irish birth or descent.

A further meeting will be held at an early date to complete arrangements, and inaugurate the new society. All persons interested in the movement are heartily invited to cooperate by attending the next meeting, due notice of which will be given through the press.

I ALWAYS select the tobacco leaves that grow about the middle of the stalk. I find this leaf as filler in my Pharaoh is best because it is perfectly and uniformly ripened

and contains just enough gum to sweat properly and so promote the proper curing. The top leaves of the plant I reject—they are too tender and gummy and contain so much of the rancid bitterness of the tobacco that it would take me five years to sweat them out properly—then they would not be satisfactory.

Then I see that the immature—torn, broken and injured leaves are discarded. The filler of my Pharaoh contains only clear—well nurtured—well matured—well cured leaves—the select of each year's Cuban crop.

J. BRUCE PAYNE, Limited, Gresham, P.Q.

Test to be made by the Consumer: Cut leaf and wrap in a few leaves of tobacco. If it sweats from it then it is a first class quality. If it does not, it is a low grade. — J. B. P.

Prosperity and Progress

The volume of business transacted by the Mutual Life of Canada during 1904 exceeds that of any previous year. Over Five Million Dollars of new business was written, making the total Assurances now in force nearly Forty and a Half Millions of Dollars. All but Thirty Thousand Dollars of the new business was written within the Dominion. The Mutual Life of Canada is essentially a Canadian Company, and believes that good Canadian business is preferable to foreign business, which is secured at excessive cost and is often of poor quality. Good home business, and lots of it, means more profits to Canadian policy holders.

SOCIETIES FORMED.

Editor Bulletin:—

Dear Sir.—Knowing that you will be interested to hear how the work of our society is progressing and what farmers generally think of our plan, I am glad to report that the work is rapidly forging ahead.

W. G. Spalding, of our executive, and myself were recently out at Stony Plain, and organized strong and enthusiastic unions at Spruce Grove and Stony Plain school districts, with the following gentlemen as officers.

Spruce Grove Local Union.—John A. McPherson, President; Geo. Sutherland, Secretary-treasurer.

Stony Plain.—Jacob Yiller, President; John H. Toersier, Secretary-treasurer.

We are assured that all Stony Plain will shortly be taking up the campaign for better prices for the farmer.

When we stop to consider that the world is dependent on the farmer, we realize how better times for him means better times for all, so that in spreading the work of this society we benefit almost all mankind.

Through speculation in farm produce many millions of dollars are annually lost to the Canadian farmer, and yet he has only to become organized under the banner of this society when he can easily cut a stop to this, and by steady and profitable prices place his business where it will yield a comfortable income over and above all expenses. This is only the farmers just right, and to secure this the American Society of Equity was formed. Farmers, awake and investigate this plan! There is money in it for you.

Yours in a good work,
WILL J. KIBEN,
Organizer Canadian Branch,
Box 5, Edmonton.

WILL BUILD A CREAMERY

Arrangements have been completed for the establishment of a creamery at Clover Bar. The co-operation of the Government has been secured and a company of farmers from the district formed to provide the necessary capital for the enterprise. The first election of officers took place a few days since when the following were chosen for the ensuing term:

Pres., J. Doze.
Vice-Pres., J. G. Ottewell.
Directors, Geo. Uren, W. J. Davidson, Jno. Reynolds, M. Latham, Jas. Daly, W. Hodgins.

The company has applied for incorporation and immediately this is secured a suitable building will be erected. The plans of this have not yet been finally decided on but the proposal is to erect a two storey structure 25x42. The ice for use during the summer has been stored and the building will be rushed, that operations may be begun as early as possible, the site selected is near Horton's store.

has its jar of Armour's Extract of Beef. Hot water and 1/4 teaspoonful of Armour's Extract make a delightful cup of bouillon. "Left-Overs" of meats, game and vegetables are made into tempting dishes, if a small quantity of Armour's Beef Extract is used in preparing them. Our Cook book tells you how.

Sold by all Grocers and Druggists.
ARMOUR LIMITED, TORONTO.

Lever's Y-Z (Wise Head) Disinfectant Soap
Powder is a boon to any home. It disinfects and cleans at the same time.

Nine Nations

Now Use Liquezone. Won't You Try It—Free?

Millions of people, of nine different nations, are constant users of Liquezone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know some one whom Liquezone has cured.

If you need help, please ask some of these users what Liquezone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Liquezone; then let us buy you a full-size bottle to try.

We Paid \$100,000

For the American rights to Liquezone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the

most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

As follows:—Anemia, Asthma, Bronchitis, Blood Poison, Bright's Disease, Bowel Troubles, Coughs—Croup, Consumption, Colic—Cramp, Constipation, Catarrh—Cancer, Dysentery—Diarrhea, Dropsy—Grippe, Hay Fever—Influenza, Kidney Disease, La Grippe, Leucorrhea, Liver Troubles, Malaria—Neuralgia, Nerve Heart Troubles, Piles—Pneumonia, Rheumatism, Ringworm, Scabies—Scalds, Skin Diseases, Stomach Troubles, Throat Troubles, Tuberculosis.

Fevers—Gall Bladder, Gout—Joint, Gonorrhea—Gleet, Indigestion—All Catarrhs—All Poisonous Infections—All Nervous Debility—Liquor can do, accomplishing what no drug.

50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Liquezone costs 50c. and \$1.

CUT OUT THIS COUPON

For this offer may not appear again. Fill out the blanks and mail it to The Liquezone Company, 230-24 Wabash Ave., Chicago.

My disease is _____
I have never tried Liquezone, but if you will supply me a 50c. bottle free I will take it.

N. LECI ERC, Prop

EDMONTON ALTA. CANADA

POPULATION, 7,500

CITY GOVERNMENT:

Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, J. H. Morris, Secretary, F. F. Tims.

Immigration Officer:—C. W. Satter.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

LOCAL

—Train on time.

—Probs.: Fine and mild today and on Sunday.

—The Richelieu Hotel has put on a bus to meet the trains.

—The building formerly occupied by the Bank of Montreal is being overhauled and renovated and will be occupied by Green & McLean.

—The Hudson Bay Co.'s general offices have been removed from the old Fort to the new block on Jasper avenue.

—The Board of Trade will occupy their new quarters west of Gariepy and Lessard's store next week. The building will be refitted and furnished suitably.

—Pastor McDonald will conduct the services in the Baptist church morning and evening. The subject of the evening address will be "The Price of Power."

—The Bishop of Calgary will hold a confirmation service in All Saints church at the evening service tomorrow. The other service will be as usual.

—In the Presbyterian church on Sunday, services will be conducted in the morning by the pastor Rev. D. S. McQueen, and in the evening by Rev. C. A. Myers, of Toronto.

—Rev. Father Gendre who arrived lately from France, will say the 8 o'clock mass and preach in French. Rev. Father Lemarchand, O. M. T. of Calgary, will sing High Mass and Rev. Father Ledue will preach. Sunday school at 2.30 p.m. Meeting of the Children of Mary at 3.30. Vespers at 7 p.m. Rev. Father Jan will preach in English.

—Calgary Herald:—J. Dupres, R. Johnson and R. Ford are three Montana cattlemen who have been attracted to Alberta by the favorable reports of this province as a stock country. They arrived from Montana yesterday and went north this morning. They will stop off at Carstairs and inspect all the country as far up as Edmonton. When they have decided on a location they will go extensively into ranching.

—Plainsdealer:—Mr. Morse laid at rest any doubts there were in the minds of any that Strathcona would not be on the line of the Grand Trunk Pacific. He intimated that it was the company's intention to begin construction at this point within two years. Mr. Morse created an excellent impression upon the callers by his courteous, candid and straightforward manner of doing business.

—According to Raymond despatch the well known Cockeran ranch of southern Alberta has just been sold to the Mormon church for \$300,000. The ranch contains 65,000 acres and is at present the range for the Cockeran Company's cattle to the number of 12,000. The deal was negotiated at Salt Lake City and it is the purpose of the church to have the ranch divided into small holdings for immigrants from Utah. The company have two years in which to clear the land of their cattle.

—Plainsdealer:—Owing to the extraordinary brand of sportsmanship which predominates the Edmonton Hockey Club, rather than to the fine weather, the championship games between the Edmonton and Strathcona teams which were to have been played this week have been called off and The Bulletin claims the cup for the Edmonton team by default of the Strathcona's. The Edmonton team has won out in a most masterly retreat of the most ignominious variety which outshines anything Kurapatkin ever dreamt of.

—Montreal Star:—In Edmonton, on March 6, the people saw signs of the approach of spring. Several flocks of geese passed over the city and the snow birds had put on their summer plumage. These are considered to be omens of the end of winter. Then, again, the deep mud in the city streets, and the grass two, or three inches high on the lawns, are deemed to be signs that spring is at hand and that hockey matches and skating parties will have to be abandoned. Of course we have not started mowing the lawns in Montreal yet, and the gardening in the public squares is not very far advanced; but already, in the spring time, the gentle youths lightly turn to thoughts of "marbles."
